

# **Gordon Food Service Market Updates**

## **Poultry section for Market Update: February 8, 2019**

---

### **Poultry | Chicken**

Demand for whole chickens is a little better, but prices are still on the defensive.

Breast and Tenders:

Jumbo breast meat is available; medium breast and tenders are balanced. Prices for both tenders and medium breast are steady, jumbo breast prices are a little weak.

Wings:

Wing prices are steady as restocking occurs following Super Bowl. Game action allowed plenty of time for eating so consumption appears to have been good.

Dark Meat:

Strong export demand supporting leg quarter prices. Leg meat and thigh meat prices are about steady.

### **Poultry | Turkey**

Hens and smaller sized toms are in great shape; larger toms are no longer under pressure. Bone-in breast prices are at least steady.
